

Snowflake Centre of Excellence

Put your data capability at the heart of delivering business advantage

What is it?

We deliver an outcome for you – A Snowflake-based capability that provides:

Data Assurance

- Quality & reliability KPIs for data products
- Column level lineage

Improved business agility

- Faster turnaround delivering data products
- Able to flex delivery teams to meet demand

Operational efficiency

- Data-driven business processes and AI assisted-solutions run smoothly
- Lower technical debt

How does it work for you?

- Fixed, low cost for validating/implementing the foundational architecture, security framework, permissions model, and supporting technologies, following best-practice guidelines.
- Short time to establish CoE data management principles, and working practices

In-house

As a service

In-house

As a service

In-house

In-house

As a service

What are the Key Advantages?

Predictable costs for a level of service you can rely on

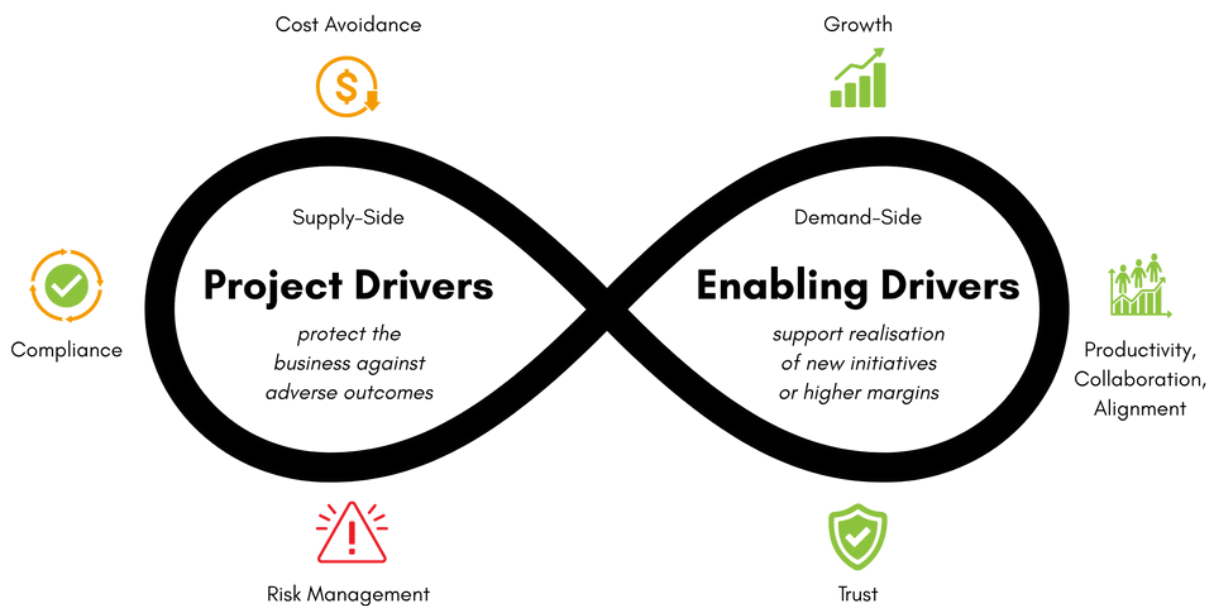

What is it based on?

The architecture, tools and working practices are selected and applied in a way that allows you to focus on business data, rather than wrestling with technical issues.

What are the Business Drivers?

Make integration more responsive to your organisation's goals
